I think you will find the attached articles about steady declines in crime in certain major cities interesting. While Memphis (along with some other cities) has not shared in this steady decline, a lot of the things we are now trying to do are quite similar to what appears to work fairly consistently - data-driven deployment of police resources, more community engagement, focused deterrence, etc. (And as noted by The New Yorker article, success tends to create more success!)

Bill Gibbons

Executive Director
